

Recommendations for the Technical Review Committee

Technical Memorandum 8

Prepared by Tetra Tech, Inc.

Presentation to

Advisory Committee

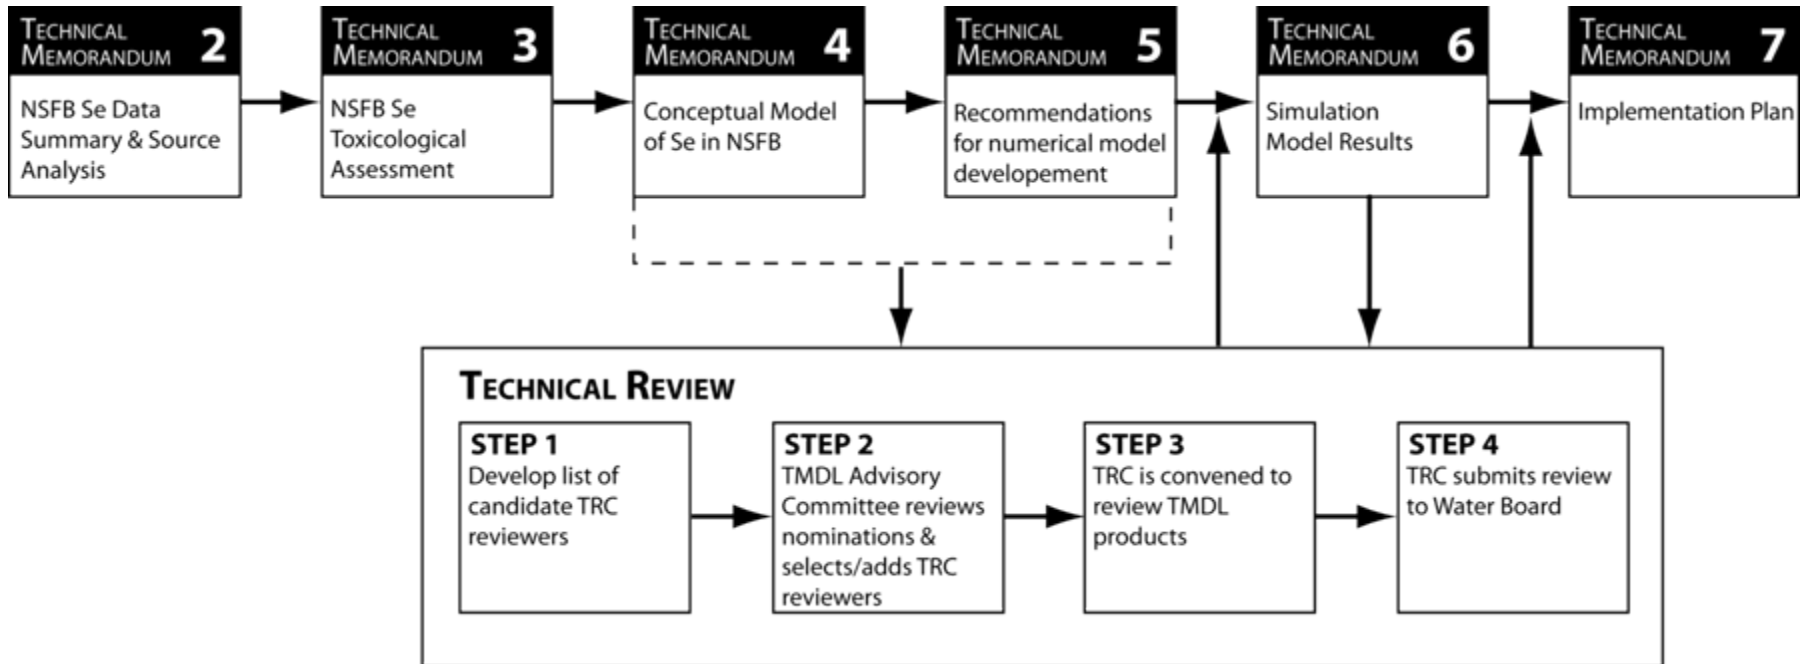

April 1, 2008

Objectives

- Ensure that the technical basis of the project, key decisions and assumptions are technically sound
- Obtain expert consultation at key steps in the TMDL process

NSFB Se TMDL Products to be Reviewed

- Technical Memorandum 4. Conceptual Model of Selenium in North San Francisco Bay
- Technical Memorandum 5. Recommendations for Numerical Model Development
- Technical Memorandum 6. Simulation Model Results

Recommended Technical Reviewers

- Nicholas Fisher, Ph.D.
Professor, State University of New York
Biogeochemical Cycling
- John Oram, Ph.D.
Senior Scientist, San Francisco Estuary Institute
Numerical Modeling
- Regina Linville, Ph.D.
Associate Toxicologist, California State Office of Environmental
Health Hazard Assessment
- Sam Luoma, Ph.D.
Senior Research Hydrologist
U.S. Geological Survey
